

# Manor Care Centre, Nairn

## Welcome to Meallmore's purpose built care centre in Nairn.

At Manor Care Centre we offer personalised nursing care for people with a physical, neurological or learning disabilities, including those with acquired brain injury, multiple sclerosis or Huntington's disease.

The centre is divided into three units, each catering for various needs such as long-term, short-term and respite care and rehabilitation.

The purpose built home offers 43 fully furnished en-suite bedrooms and has built up an enviable reputation in both the local and wider community for its high quality care, including the latest assistive technology to support the mobility and care of our residents.

As Care Home Manager, I am committed to developing a positive and happy home where people enjoy living and working. To ensure our residents continue to have an active social life, regular trips in our minibus are organised to the local shops, theatre or to take part in local events and activities. We also offer a variety of tailored activities in the centre so residents can continue to enjoy hobbies.

Our landscaped gardens are safe, secure and easily accessible, providing an attractive area to sit and relax or enjoy a spot of gardening.

Our care staff are trained to the highest standard and are on hand 24 hours a day to provide professional care that respects the rights and dignity of our residents, as well as full medical support from specialist nurses trained in Huntington's, epilepsy and learning disabilities.

The home lies on the beautiful Moray Firth coast in Nairn in the Scottish Highlands, a short journey from Inverness.
